Fully Work Authorized · No Visa Sponsorship Required

SUMMARY

Product Designer with startup and growth design experience creating end-to-end user experiences that simplify complex flows and improve activation, engagement, and usability. Skilled in user research, interaction design, visual design, wireframing, and prototyping from low-fidelity concepts to high-fidelity prototypes, with experience translating usability insights and stakeholder feedback into intuitive product decisions. Strong foundation in design systems, and AI-powered product concepts, using data-informed iteration to create clear, user-centered solutions.

SKILLS

Product & UX: end-to-end product design, user flows, information architecture, wireframing, interaction design, low- to high-fidelity prototyping, mobile-first and responsive design.

Research & Testing: user interviews, persona development, usability testing (moderated/unmoderated), heuristic evaluation, research synthesis, iterative design, A/B experimentation.

UI & Design Systems: visual design (typography, layout, composition, color, contrast, hierarchy), design systems (components/variants, tokens, auto layout), accessibility (WCAG 2.2), micro-interactions, motion.

Tools & AI: Figma, FigJam, Figma Slides, Figma Make, Framer, Rive, Adobe Creative Cloud, AI-assisted ideation, AI-assisted content exploration, AI prototyping workflow experimentation.

PROFESSIONAL EXPERIENCE

Product Design Intern

[Flowers Valley](#) Concord, USA — 03/2025 – Present

- Led the redesign of the onboarding and subscription flow for a Bay Area startup, owning the feature from wireframes to high-fidelity prototypes and iterating through stakeholder feedback.
- Reduced sign-up steps from 8 to 5 (-37%) and decision points from 4 to 2, simplifying cognitive load and accelerating activation.
- Built and maintained a lightweight design system to ensure visual consistency and scalable iteration.
- Partnered in weekly product reviews to iterate based on usability findings and stakeholder feedback.

Growth Design Collaborator

[YouTube Channel Alex Demko](#) Bay Area, USA — 12/2023 – 02/2025

- Led A/B experimentation on thumbnails and hook structures, increasing CTR from 3.2% to 4.8% and improving average view duration by 26%.
- Applied behavioral insights and funnel analysis to reduce first-30s drop-off by 25%.
- Collaborated with content strategy to align visual design with audience retention goals.

Private Design Tutor - Visual Communication & UI Fundamentals

Remote — 01/2022 - 11/2023

- Mentored 18 early-stage designers in product thinking and UX iteration; improved average prototype usability (SUS) from 62 to 78 through structured critiques and data-informed refinements.

EDUCATION

Essentials of User Experience Design

UC Berkeley Extension – 12/2024 – 02/2025

- Completed a rigorous, project-based program in user experience and interface design.
- Designed and tested an AI-powered food search experience for people with dietary needs, achieving 88% task success (n=10) and 30% faster task completion after three design iterations.
- Gained hands-on experience across the UX lifecycle, including user research, wireframing, prototyping, usability testing, and collaborative synthesis.

Bachelor's Degree in Law (Business Emphasis)

Donetsk National University named after Vasyl Stus – 2016 – 2022

- Built a foundation in commercial law, contracts, privacy, and compliance that supports risk-aware product thinking.
- Developed analytical reasoning, business judgment, and clear stakeholder communication through structured problem-solving and evidence-based argumentation.

Art Program

Vinnitsia Children's Art Department, School No. 2 – 2009 – 2017

- Completed an 8-year program in classical and applied arts, building a strong foundation in composition, perspective, color theory, and visual hierarchy.
- Developed visual storytelling, critique, and iteration skills that continue to inform clear, detail-oriented UI design.
